

# Contract Manufacturing

*quality solutions built to last*

## **World Leader of Electro-mechanical System Design**

As a world leader in the design of automated and electro-mechanical systems, General Dynamics Robotic Systems (GDRS) delivers flexible contract manufacturing services designed to maximize efficiencies, reduce costs, and deliver ISO 9001:2000 quality for high-vol-

toughest jobs. Plus, they understand the value of low cost innovation for a production environment. Whether you need "Build-to-Print" production from an existing design, or a final product manufacturing redesign to improve quality and reduce costs, we can execute your project, test it, and troubleshoot costly problems before it goes to production.

ume customers like Northrop Grumman, Lockheed Martin, the US Postal Service, and the Department of Defense. Once they work with us, our customers return to take advantage of our complete range of contract manufacturing capabilities.

## **Eliminate Costly Problems Before Going to Production**

Our highly experienced engineering team, expert technicians and manufacturing staff willingly tackle the

## **Committed to Low-cost Innovation**

Based on these principles, we continue our long history of meeting customer requirements for proven, high-quality solutions that are built to last under heavy and demanding workloads. Plus, we're always finding new ways to get the most value from your product. Our hands-on approach to high-technology manufacturing combined with our commitment to finding quality low cost suppliers makes GDRS your best value production source.

Robotic Systems

## Contract Manufacturing Capabilities

- State-of-the-art, high-speed manufacturing of electro-mechanical equipment and precision parts
- Concept-design-build program
- Build-to-print program
- Value-added engineering
- Systems integration
- Rapid quick-turn prototyping to full-volume production
- Preferred supplier status and qualification to all military and commercial specifications
- ISO 9001:2000 certified
